How to recover from a LDAP and SQL database data corruption

Additional Information

Introduction

This document contains additional information for recovering from a LDAP and SQL database corruption

My LDAP database seem to be corrupted. How can I recover my LDAP database ?

On Mac, start a Terminal window and run the following command :

```
sudo /usr/sbin/stsd dircache --reset
```

On PC, start a DOS shell and run the following command :

```
stsd dircache --reset
```

My SQL database seem to be corrupted. How can I recover my SQL database ?

On Mac, start a Terminal window and run the following command :

```
sudo /usr/sbin/stsd repair -table=ALL
```

On PC, start a DOS shell and run the following command :

```
stsd repair -table=ALL
```
