

## **Teamsoft : TeamAgenda and Firewall**

### **Additional Information**

#### **Introduction**

This document present information for accessing TeamAgenda via a Firewall.

**I would like to access my TeamAgenda Server from a remote location.  
Which ports do I need to open on my Firewall ?**

Here is a short table summarizing which ports that need to be open on your firewall.

<b>Services</b>	<b>TCP Port (Inbound)</b>
TeamAgenda Pro, Lite, Web	3552
TeamAgenda Server Administration	32423

#### **Will the TeamAgenda Server support ports translation from my Firewall ?**

Yes. You should be able to define a virtual IP and TCP ports on your firewall and forward all packets to the private IP address and TCP ports of your TeamAgenda Server.
